

We Need an Electoral Alliance for 2015!

- Harper's "majority" is based on 40% voter support
- 60% of us voted otherwise (across 4 parties)

By targeting the weakest Conservative seats:

- we could replace Harper
- get a fair voting system, with proportional representation
- set a comprehensive climate action strategy in action
- and bring in other progressive measures Canadians support

In 2015 a New Government in Ottawa is our Top Priority!

But we need an electoral alliance to prevent another Harper government if we don't get it

- Strategic voting has not been effective in the past
- Opposition Party Collaboration is the key

Electoral Alliance for 2015 is the realistic way forward
